Passive Security Measures

Protect building with landscape

Artful perforation

Identifying vulnerabilities

A clearly demarcated and well-lit path

One main entry to a building versus multiple entries

Varying elevations

Visibility: Clear sightlines

Way finding: minimal angles and corners

Maximizes multipurpose features that accomplish a security purpose and provide a visual and use amenity

Potential perimeter barriers: benches, bus stops, streetlights, lampposts, retaining walls, fountains, planters, and plinth walls

Lighting for security purposes: illuminate sidewalks, signage, entry paths, and entryways

Plants help screen hard security elements can provide shade, beauty, and seasonal color

Family and community oriented history and culture

Front porch

10-15 feet setback from sidewalk

Gable roof facing to streets

Small scale churches and stores

Recent camel-back additions and two story houses
