

ADDENDUM NUMBER TWO

February 06, 2018

RFQ #18-910-12; FIBER INSTALLATION AT THE FISCHER HOUSING COMMUNITY

THE FOLLOWING ADDENDUM IS BEING ISSUED TO INCORPORATE THE FOLLOWING IN THE REFERENCED REQUEST FOR QUOTES.

Item #1 WRITTEN QUESTIONS RECEIVED

Q1: The scope of work states to "Re-connect and integrate the (12) twelve cameras to the fiber network and ensure the cameras are fully functioning". Since we cannot guarantee that the cameras that have been offline are still functional once we re-connect to the fiber network (without renting a lift and inspecting each camera before submitting a price), replacement of a failed/damaged camera would result in a change order to replace the actual camera.

It is our intention to simply repair the fiber network, test fiber and power and attempt to re-connect and integrate the existing cameras in hopes that the cameras are still in working order?

A1: Yes. The Contractor shall provide all labor, supervision, materials, and equipment, which includes "a lift or Bucket Truck", if necessary, to replace the fiber network, test the fiber and verify power to the existing cameras as outlined in the scope of work.

The contractor must also provide to HANO an OTDR test report of the new fiber to the Main Distribution Frame, and ensure that all connections have been properly installed to each camera.

If all of the work has been completed, and the cameras are not fully functioning and displaying visual images of the site, a separate procurement to purchase and install cameras will be issued. A change order to purchase and install cameras will not be considered pursuant to this solicitation.

Quotes must be received by the Housing Authority of New Orleans (HANO) in the Office of Procurement and Contracts by 2:00 p.m., local time on Wednesday, February 07, 2018. All terms and conditions shall remain as stated in the original Request for Quotes. All addenda must be acknowledged.
